List all parcels included in this project:

Will this project impact NDOT right-of-way?

Explain how you plan to manage any industrial or process wastewater generated by your project:

To initiate water modeling from TRI-GID, please provide the following information:

Peak Potable Water Flow (GPM): _____

Annual Potable Water Consumption (AF): _____

Peak Process Water Flow (GPM): _____

Annual Process Water Consumption (AF): _____

Will this be a privately or publicly funded project?

APPLICANT ACKNOWLEDGES THE FOLLOWING:

- Special projects will incur pass-through fees for support services provided by the District Engineer, including, but not limited to, modeling, technical support, inspections, and meeting attendance/project coordination. These fees will be charged on a T&M basis (Fee Schedule is attached). Estimates can be provided upon request, if the project schedule and details are provided.
- If your project includes off-site improvements, once your project has reached the Special Project Application stage for plan review, a project SharePoint will be provided to you for uploading the documents required by the Off-Site Project Checklist. Plan review and inspection fees will be due at that time.
- TRI-GID facilities are **NOT** to be operated or altered in **ANY** way without notifying TRI-GID. Please call 775.636-6126 for assistance or email customerservice@tri-gid.org.
